H. L. HELGESEN.
Witness:—John Copland, Solicitor, Supreme Court.

Municipal Notice.

NOTICE IS SECRETED TO THE ATT THE SECOND QUARTER OF SHARE STATE AND ALTER OF SECOND QUARTER OF SECOND

Victoria, B. C., May 29, 1867.

BRITISH PERIODICALS. The London Quarterly Review (Conservative.

The Edinburgh Review (Whig) The Westminster Review (Radical.

The North British Review Free Chuch -AND-

Blackwood's Edinburgh Magazine, Tory Figure 1. The four Reviews re-published by Messrs. Scotter Co., are generally considered as the Great Reviews, and Blackwood has been justly placed in the same rank. Whoever dispenses with reading publications of this class, whatever may be his general information, will soon be altogether behind the times in which he lives—and in these times a person may soon get very far behind. They may be read and studied with advantage by the people of this country, of every creed and party.

If Blackwood is unusually attractive at thisf

party.

IF BLACKWOOD is unusually attractive at this time, to Americans not only for its serial articles by disting-rashed writers of faction, but for the account of the late civil war, now being written by Col. You Borke, a German officer, chief-of-staff to Gon. J. E. B. Stuart, of the Confederate

TERMS FOR 1866.

For any one of the Reviews \$4 per ann

CLUBS. A discount of twenty per cent will be allowed to clubs of four or more persons. Thus, four copies of Blackwood, or of one Review, will be sent to non adoress for 812 80. Four copies of the four Reviews and Blackwood, for \$48 00, and so on.

POSTAGE.

When sent by mail, the Postags to any part of the United States will be but twenty-four cents a year for "Blackwoed," and but eight cents a year for each of the Reviews.

Reduced Prices for previous years. b Subscribers may obtain the Reprints immediate ly preceding 1866, as follows, viz:

ly preceding 1895, as follows, viz:

Blacknood from September, 1864, to December, 1865, inclusive, at the rate of \$2.50 a year.

The North British from January, 1863, to December, 1865, inclusive; the Edinburgh and the Westminster from April, 1864, to December, 1865, inclusive, and the London Quarteriy for the year 1865, at the rate of \$1.60 a year for each or any Review. Farnan's Specific baseteed the test of years, and it?
beneficial influence, as well as the extraordinary rapidity
with which it acts on the system and removes pain and
the case of pains—that; to say, the condition of the
blood and stoinach which produced the adhetion—can be
witnessed to by thousands. The cure is as commission as
it is narm, and, attempthened by the testimentes of a
large body of patients who have received almost INSTANTANEOUS rolled after all other remedies lave
falled, the proprietor has the utmest confidence in offering it to the notice of the public. To the constitution it
is harmless; to the fluids of the human frame it adds a
healthy impetus; to the system generally it is intigerating to a degree unparalleled; and both sexes may take it
o equal advantage. A dose taken about once a month,
operates mosteflectually in preventing a return of the
complaint.

We have given the authorities quoted on both sides by the learned counsel in this suit, as well as the opinion of the the case to go to the jury. Now, it ince to express an opinion as to the merits or demerits of the suit, so far as its legal aspect is concerned. We have only to deal with the abstract question of right—the equitable claim followed with explanations of the method that Mr Titus may or may not have against the city for the payment of zes; that papers on the subjects of Divinin a court of law. Right is a "bigher pared for examination of the Boys respeclaw" than the authorities quoted by the learned counsel on either side. The case lies in a nutshell: Mr Titus was awarded the contract for making the days especially appointed therefor, witha drain through a part of View street. The drain was intended to carry off the water from the swamp. The contract was entered into in consequence of a petition sont to the City Council by a number of lot-owners on View street, and upon the faith of the potitioners' promise to pay prorata the cost of its construction when a certificate of its completion accord-City Surveyor. The work completed, and demanded his money. The Coun. prizes: cil throw the responsibility upon the petitioners. The latter, through poverty, or some other unexplained cause, neglected or refused to pay. The case has come before several successive Councils all of whom have refused to recognize the claim, amount. ing to upwards of \$2000, and after several years passed in vainly petiseveral years passed in vainly petitioning for redress, the contractor, the (Governor's prize) Woods, H K: 2. (Governor's prize) Cohen. George; 3. Gowother day, sought relief in the Suother day, sought relief in the Supreme Court by bringing suit against the Corporation. The contract, howover, was decided to be irregular and Hall, Richard; 3. Barnard, F; 4. Needbam. not binding in consequence of the abserce of the City Seal; and in addition to his heavy responsibility in the matter of the drain, the contractor loses culiarly hard one. The work was acbenefit the entire city or a particular section does not enter into the argument. The drain was built with the sanction of the Council, the contract was signed by the Mayor, and the work pronounced to have been propwork pronounced to have been properly executed by the proper officer. All that was required to make the him, but this time it was with sincere agreement binding on the city was regret, as he would no doubt cause the Corporate Seal, which was accidentally everlooked. Had the seal Collegiate School had been founded now 7 on the face of the contract vers: its object was the best instruction may men, the sailor on the sea, become a may man, the sailor on the sea, become a may man, the sailor on the sea, become a may man, the sailor on the sea, become a may man, the sailor on the sea, become a may man, the sailor on the sea, become a may man the sailor on the sea. appeared on the face of the contract, years; its object was the best instruction appeared on the face of the contract, the Judge would have been bound to charge the jury in favor of the plaintiff. But if through the absence of the seal the legal responsibility of the Council is lessened, their moral responsibility is note that legal. The contract that could be imparted, on the unswerving foundation of Christian education. It had not been described a more interesting and useful, to themselves a more interesting and useful, or grander question. The Duke of a bolter, or grander question. The Duke of a bolter, or grander question. The buke of eminence in their attainments. Besides the principles of all realing over the meeting, but several papers were read. One of them showed the commencement, they had the services of the principles of air-saling found in the contract. sibility is none the less. The contract the Rev. O. Glover, Rev. W. S. Recee and structure of birds might be applied to the use of man. Mr Henry Bright explained his informent faithfully, believing the contract to be binding upon both parties to be seen very heavy; from 1863 to 1866, four the second beautiful to be seen the commencement, they had been from \$2300 to \$2900. he is told the Corporation is not years, they had been from \$2300 to \$2900, liable. Why, then, does the Mayor's signature appear attached to the document, and why was the City Surveyor charged to see that the work was properly performed? If the View He regretted to have to state he should not street lot-owners were alone to be held feel justified in continuing this expenditure.

The Responsible Organ.-The stomach is re-The Responsible Organ.—The stomach is responsible for more evis than were contained in Pandora's Box. Atonic, dyspepta or simple indigestion, is the first indication, of more than baff the diseases commented in medical books. Meet it at once with Bristotte Baranparilla, the most genial tonic and corrective when one botanic singdom has yet yielded to chemical science. Invisorate the stomach and gently scimulate its gastric action with this famous restorative. Remember that the digostic apparatus is the primary source of vitality from which the whole body draws its supportance. of vitality from which the whole body draws its sup-plies, and that Bristol's Sursapparilla is a specific for the disorders that affect it. In all diseases all ctup-tion liver, stomach or bowels, Bristol's Vegetable 1910—should be used at same time with the Sarsa-

Collegaite School.

DISTRIBUTION OF PRIZES.

This interesting ceremony took place yesterday, the Bishop of the diocese presiding. The proceedings were commenced at twelve o'clock, in the presence of the parents of the pupils and other friends of education, by the Lord Bishop in a speech in which he alluded to educate personally the younger boys. A to the objects and principles of the school, which was founded on Christian instruction and religious training; and in adverting to the subjects taught took occasion to remark that many matters were instilled into the minds of the young at this institution, which though of themselves not always useful in Chief Justice when declining to allow every day life, educated and sharpened the mind and prepared it by intellectual effort for clearly does not fall within our prov- the reception of what was really practical; that the education here imparted was not intended to be limited to mere intellectual effort and instruction but included the far higher object of moral training.

The Rev C. T. Woods, the Principal, then followed this year in the allotting of the prithe amount he has failed to recover ity, Mathematics, Latin, &c., had been pretively, by the Bishop, the Rev R. C. Garrett, Mr Alston, the Dean and Mr Gribbell; that these papers were printed and handed to the boys to be examined only on the morning of out having previously been seen by him or any boy; that they were in like manner collected and handed back to the examiners who, without his privity, allotted a certain number of marks indicating degrees of merit; and that on the relative number of marks allotted to each boy depended the awarding of the prizes.

To this there was no objection : the Bishop's prize was bestowed for general good conduct and persevering industry ing to contract had been given by the throughout the year or half year, and was awarded irrespectively of classes or actual the contractor appeared before the attainments. The Principal then read the Council with the Surveyor's cortificate | following list of these who were entitled to

IN DIVINITY.

1. Woods, H K; 2. Woods, Chas THE BISHOP'S PR'ZE.

1. Tolmic, John; 2. Devereux, Bingham; 3. Rhodes, Godfrey; 4. Elford, Theophilus; 5. Harvey, Harry.

[cqual marke]; 5. Helmcken, Henry. ENGLISH.

And for special commendation the names of a few who, though not having actually attained to a prize, had perhaps made even more progress than some of the prize recipients. Some particularly flattering remarks the law costs. The case is a post were made with regard to Rout Harvey, a cepted by the City Surveyor-the of School but comparatively a short while back ficer authorized to oversee the por- in comparison with his progress, and was formance of all contracts of the now well among the leading boys; and also kind-and his certificate was is, Edgar Marvin who in the early part of the sued. Whether the work was to year had been deprived by illness and absence of many advantages, but had shown such steady industry and ability as entitled him to special notice.

NAMES FOR SPECIAL COMMENDATION.

The Bishop then rose and wished to add a few remarks to what had before fallen from above the actual receipts from the parents of the children. The money had been supplied by him or through him. The sources from study of nature, chall dely contradiction and which this expenditure was derived were much restricted, and diminishing every day.

Nothing would give him more pain, after meddle and muddle with the matter all the trouble taken with the object in view. nt all, beyond giving permission to the bad received their education; and he was contractor to tear up the thoroughfare? Here we have a public improvement, performed by a contractor them; he had heard from the Principal, who still kept up his visiting and connection with in perfect good faith by virtue of an all the boys, since grown up, had established agreement which he believes to have a character for themselves, and were looked legal force; and after the work is to with respect. He alluded to all those

ber of teachers; the second was to close the to avail themselves of any advantage school in preference to carrying it on shorn that may flow from its execution. of its usefulness; the third alternative was Morally, the Corporation is bound to to raise the fee and increase the resources; compensate Mr Titus, and, with the the fourth was to get assistance from the Golden Rule in its mind's eye, it parents and others interested in its success. should not shrink behind the City It was for the latter to take steps to keep on Seal to shield itself from responsit a permanent footing, and he would be very glad indeed if, during the holidays, something could be suggested or adopted with this object. On being called on by his

> Mr Etheridge made a few pertinent remarks, expressive of inexperience in so new a subject to him, and deep regret if any such thing should happen as the closing of the

thing should happen as the closing of the school.

The Mayor then made an appropriate address to the boys, enlarging on the privileges they enjoyed of a sound education, and hoped they would make the most of them, this spider lets itself fall, happing to a lit, the literature and there are spincing to a lit, the literature and there are spincing to a lit, the literature and the literature a as in after life, much of the facility for learning was lost.

Dr Helmcken, in reply to a call from His Lordship, said be did not like hasti'y to speak floats away. On the whole, it may be said on so important a subject as this school. But that when so ientific men explain thoroughly he was quite certain that the people of the he was quite certain that the people of the closing of it; will not be long behind in conquering the Uniony would deeply regret the closing of it; will not be long behind in conquering the in fact, they would not allow it. The people difficulties of actial navigation.

of Vancouver were not dead vet and did not mean to die. With regard to the boys, whom he wished to address, he would observe to the boys of the upper forms that in their hands was the character and standing of the school. That on them greatly depended its tone and reputation outside of the walls, and that it was part of their duty and province school was a democracy in which the majority rule, and it that majority has a right sense of things, the remainder will be good

The Dean, at the invitation of the Bishop would limit himself to a few observations to the boys. That the great benefits of an intellectual education and pursuits were there, that through genuine piety, he was quite convinced, would alone preserve them harmless in the midst of the temptations to which in their youth they would be exposed, still intellectual habits and pursuits would shield them from low and degrading pursuits to which otherwise they might easily fall a prey.
With a few observations from the Bishop

and the Principal, the proceedings then closed, but

Dr Tolmie before leaving would suggest

to his Lordship and the Principal the pro-priety of taking steps at once in the matter of the school now while most of the parents were present, in which the Principal concurring, Friday week, the 5th July, at 8 pm was agreed on for a meeting of the parents of the children and friends of the school to meet the Principal at the College School for the discussion of the matter. The meeting ton separated, the school to meet again on the first Monday (5th) August next.

Sunken Treasures.

On the 9th of October, 1799, La Lutine, 32-gun frigate, was totally lost near the entrance of the Elbe, and all on board (except one) perished. She had on board a large amount of specie—it is said upwards of £400,000—which had been shipped for the supply of the army, then engaged in Holland, under the of specie—it is said upwards of £400,000—which had been shipped for the supply of the army, then engaged in Holland, under the Prince of Orange. The French having invaded that country, the sunken wreck was subsequently discovered, and numerous efforts were made to recover the specie, and a clause was introduced into their plans by the Government, that the salvers should be entitled to one-half of the specie recovered, and that the other half should go the King of Holland. The specie was the property of the underwriters in England, where it was insured, and they bad paid the total loss; but no stipulation was made to secure their interests by the company. Indeed, by that time all the actual underwriters were dead, and the relatives, probably from want of information, took no steps in the matter to protect their interest. For years the company persevered without success. Eventually, however, a considerable amount of specie was recovered. The exact amount has never been correctly ascertained, but some £26,000 was paid over to the King of Holland in accordance with the agreement. He, having no claim on it, had it transmitted to the underwriters at Lloyd's, in whose custody the amount still remains. The ascerch for more of the specie is still continued when the weather permits, and the locality where the wreck lies is closely watched and nearch for more of the specie is still continued when the weather permits, and the locality where the wreck lies is closely watched and protected by a guard. A great deal of property has been recovered, such as plate, etc., belonging to the officers who perished, and this has been restored to their relatives. An elegant carred table constructed out of the timber of the wreck has recently been placed in the committee room of Lloyd's, together with the ship's bell and chain. A silver table let into the table bears the following inscription: 'H. B. M. ship La Lutine, 32-gun frigate. commanded by Captan Laucelot Rymer, R. N. Sailed from Yarmouth Roads on the morning of the 2th of October, 1729, with a large amount of apecie on board, and with a large amount of specie on board, and was wrecked off the island of Ubiland the was wrecked off the island of Ubiland the same night, when all hands were lost, except one man. The rudder, of which this table is made, and the rudder chain and bell, which the table supports, were recovered from the wreck in 1859, together with part of the specie, which is now in custody of the committee for managing the affairs of Lloyd's.—Dec. 1866.'—English Paper.

Sailing in the Air.

The Duke of Argyll has given the sanction of his rank and his intelligence to a new society, which has been set up to conquer the difficulties of sailing in the air. The society held a general meeting a few evenings since, of sailing in the air is mastered, although a great thing will have been done, it will not be a greater, if so great, a thing as the com-bination of the fruits of genius which are deemed matters of course in a daily news deemed matters of course in a daily news-paper—the coation of language, the making of paper, the invention of printing, magnet-ical messages and postal communications. There is no difference in principle butween sating on water and sating in air. Birds are air swimmers. Probably the ex-planation of their long, unreating flights is to be found in Glaisher's discovery. They float on strata of air, the relative specific gravity of which to the weight on their bodies may make floating on air as easy as floating on water is to swans. The flying fish is a fish built for short swims and short flights Fish are provided with small bladders, which have ueither a'rabage like fishes, nor tubular bones like birds—animals as wingless as man which nevertheless have mastered the diffi-

PECULIAR PROPLE-A SINGULAR ELOPEMENT CASE .- The Troy Times of May 10th says: Our correspondent sends us the particulars of an extraordinary elopement which has kept the usually quiet people of South Adams in a fever of excitement for some days past. The fair but fickle one in the case is the wife of an

fair but fickle one in the case is the wife of an estimable gentleman connected with one of the paper mills of the village. They had been married two years, and seemed happy and contented with each other. A few days since a former lover of the lady, whom she lad 'jitted,' because of his absence and neglect, to marry her present husband, returned from California. The lady and the former lover happening to meet, the old flame of love seemed to bluze out afresh, and an elopement was agreed upon. She then informed her husband that she desired to visit friends in Salem, Washington county, where they had formerly resided, and he, innocent and confiding soul, could not find it in his heart to refuse her request. Furnishing her with the fuse her request. Furnishing her with the necessary funds, he accompanied her to the cars and took an affectionate adieu, but had no scouer left her than she was joined by her paramour, and, instead of going to Salem, proceeded with him to Albany, where they spent several days at the Delavan. An acquains tance of the husband, dining one day at the same hotel, observed the truant couple, and on his return to South Adams informed the victimized husband of the 'situation.' Astonished and indignant, he at once started in purposit of the same table to the day of the same table to the same table tabl suit of his sponse, but was unable to find he the capital city, even with the assistance of keen eyed detectives. He learned, however, that the fugitive couple had fied to Rutland, where they spent the Sabbath, and he followed them there. They managed to get out of town before him, and the wife then went to Salem and stopped at the house of a friend—thus amorable carriage out the original to the same and the same and the critical action. satem and stopped at the house of a friend—
thus apparently carrying out the original programme, while her lover returned to South
Adams. Here the indignant husband came up
with him. There was a calling to account
and a brandishing of pistols, but citizens interfered and no blood was spilled. The husband then learning that his wife was in Salem,
started for that place and at the house of sand then tearning that his wife was in Salem, started for that place, and at the house of a friend found her. He had hardly become seated, before, upon looking out of the window, he saw the usurper of his domestic joys coming toward the house. Drawing his revolver he jumped up and rushed for the door, but on meeting instead of using the weapon he extended his hand asked the fellow if they be extended his hand asked the fellow if they were not friends. The latter answered that as far as he was advised they were, and came into the house. The husband, wife and paramour then sat down and held a 'council of war.' As a result of their deliberations, the defeat prejudice by navigating the nir. As for the feat itself, by studying how animals do it, men may hope to be able to do it. Birds fly because they cannot help it. Flying is the instinct of their structure. Man by home with him. Her lord then said that he his brain more than makes up for the deficiencies of his organization. When the art of sailen in the art is presented at them to be could make out against the partner of his heart of the his heart of the heart of heart of the heart of be could make oath against the partner of his former happiness. He returned, and finally, by persuasion, induced the truint wife to go home with him—although she 'wished him to distinctly understand that she should not remain there long,' which determination, for his sake, it is to be hoped she will carry out.

CONVICTION OF AN ARISTOCRATIC SWINDING A female swindler, who a short time back made a brilliant appearance in Brussels under the assumed name of the Countess ter the assumed name of the Countess de Fernandez Lopez, has just been tried by default in that city for having victimized a number of tradesman. She appeared in Brussols in November last, and from the stylish manner in which she lived found no difficulty in obtaining credit, and honored the principal dealers with extensive orders. them. Birds float themselves in air floss being executed, she requested the (the gaseous form of water), because their bounds and quills are filled with warm and light gases. But there are animals which have neither air-bags like fishes, nor tubular bones like birds—animals as wingless as man which nevertheless have mastered the different properties of the properties of coming forward in complete ball-dress, begwhich fleverinetes have mastered the difficulties or rather have been built to surmount the difficulties of air-sailing. Such are the powers of flying possessed by one species of spider that Dr Martin Lester called it "the spider that Dr Martin Lester called it "the bright." There are spiders which sail in the air attached to balloons which they make of silk, inflate and direct; and there are spiders which fly about on floate of Glavorte. when the ball dress was taken off and packed up, with all the valuable purchases, and an hour later the adventuress was on her way to Berlin. An attempt was alterward made to obtain the recovery of the property and the arrest of the swingler through the Prussian Police, but the authorities at Berlin, considhir, this spider lets itself fall, hanging to a thread some six or eight inches long, and then its rises on the breeze until on a level interfere. The Court of Correctional Police with the finger, when it suddenly loose as the thread from its hold on the finger and floats away. On the whole, it may be said that when scientific men explain thoroughly how animals, flying fish, birds, squirrels, and especially spiders, sail in the air, men of skill men. de Fernandez Lopez again viets will not be long behind in conquering the difficulties of aerial navigation.

Police, but the authorities at Berlin, consideration to the growth of the properties at Berlin, consideration to the growth of the properties at Berlin, consideration to the growth of the properties at Berlin, consideration to the growth of the properties in the growth of the constitution it at Brais on the breeze until on a level interfere. BIRTHS.

In this City, June 27th, the wife of Mr G. E. Nius, of a daughter.

Summary Court.

[Before Chief Justice Needham.]

THURSDAY, 27th June, 1867. The Vancouver Coal Mining and Land Company (Limited), versus Thomas Wright

and owners of steamer Diana. This case having been called, His Lordship stated that provious to leaving England he dated, will be somewhat of a puzzle. was a shareholder in the Vancouver Island Coal Company (limited), that he had transferred all his shares and interest to his brother, who was and still is one of the directors of the company; that His Lordship had no interest whatever now in the company, still he felt himself morally liable in a pecuniary view for any loss his brother might sustain by reason of such transfer, that the shares in said company were, when he left England, almost valueless. With this statement would the parties consent to try the case before him? Each party stated they had every confidence in His Lordship, whereupon the case proceeded,

Mr W. S. S. Green appeared for the plaintiffs, and Mr Solicitor General Wood, instructed by Mr Pearkes, for the defendants. The action was brought to recover the eum of \$227 98 for coals supplied to the

steamer Diana. The detendants paid into Court \$82 48, and pleaded a set off as to the balance, repairs having been done to the steamer for damages received whilst under charter to the plaint ffs.

His Lordship after summing up the evidence carefully, found for the defendants.

THE QUEEN OF ENGLAND A PEACEMAKER .-A CONFIDENTIAL HINT .- The cable brings the welcome news that the impending war in Europe has been averted, and that Queen Victoria of England is the peacemaker. Her proposition for a Conference of the great Powers in May, to settle the Luxembourg by the parties most interested .- Springfield Republican.

Nor is this the first successful effort in the same direction of the good Queen Victoria. It was by her thoughtful and timely interposition upon the Trent affair, that a war between England and America was averted. England meant war, and made instant preparations for the emergency. The Ministers, if they did not mean it, took a step which would have provoked war-a step which, by the Queen's interposition, was so medified as to result amicably. The details to which we refer are most interesting, but for the present confidential. We hope ere long to be at liberty, by disclosing what came to our knowledge in London at that critical moment, to render just praise to the suggestive wisdom and womanly sympathies of that eminently good Queen .- American

THE SNIDER RIPLE .- It is with the greatest satisfaction that we are enabled to state that the whole of the infantry in the army in the United Kingdom are at this moment supplied with the Saider rifle, while there is an abundance of ammunition ready for their use. All the difficulties to which we have from time to time alluded have been overcome, and the reports from all districts appounce a perfect satisfaction with the arm as a practical weapon. A considerable quantity of converted arms are in store ready to be serve ed to regiments on their return from foreign service. It is intended immediately to issue these arms to the army abroad, commencing with Gibralta and Malta. Application has been made by the Volunteers of Canada for a supply of the arm for that force. A short rifle has been adapted for the use of the Irish shipment having been received by steamer grooting.

Spring Goods—The assortment of Spring and Summer goods at Victoria House is and Summer goods at Victoria House is used timely. Composed of herbs only, it can be given now complete, the balance of their summer safely to infants. Full directions in English, French, Spainsh, and German, with every package. This ITI For sale stall the wholesale and retail drug stores and grooting. with Gibralta and Malta. Application has netabulary. The country may, therefore, rest content that, pending the experiments that are to be conducted by the Committee on Small Arms, prolonged as they must be, our military forces are, in the respect of breech-loading rifled arms, in as advanced and satisfactory a position as can be desired

DIVORCES IN CONNECTICUT .- A petition to the Legislature, from New Haven, on divorce, sets forth that marriage and the family relation, and consequently all society, are being demoralized by the facility with which divorces are granted in Connecticut: that the law leads to incautious marriages by holding out that divorce is easy; that the separations for frivolous causes, and the scenes of collusion and fraud witnessed at every session of the Superior Court are such as to give the greatest pain and alarm to Christian men ; that Jesus Christ commanded that no cause except adultery should justify divorce, and that this divine law excludes the jurisdiction of all Legislatures. and that no condition of society in any future age of the world will petmit the recognition of any other proper cause. The memorial is printed, and originated in a club 624 in bars. of venerable and learned gentlemen in New Haven, the sixteen signers being all between 70 and 100 years of age, and mostly retired clergymen.-Hartford Courant, May 10th.

OSTENTATIOUS MARRIAGES .- There was recently celebrated in Canada a marriage at which seven clergymen officiated. The New York Post very properly remarks with refer- The Greatest Family Medicine of the age ence to this superfluous ceremony : " Would it not be sensible to avoid unnecessary expenses at marriago ceremonios, especially when the waste makes boarding instead of housekeeping compulsory! It takes, it seems, goven clergymen to tie a couple together, whom one long milliner's bill may shortly after put asunder. We are fast getting to be as ostentations as the Hindoos, whose bruises and sprains, swelled joints, ringworm marriage ceremonies last for weeks, and often exhaust the resources of the unfortunate

THE U. S. Revenue Cutter Lincoln is lying in San Francisco harbor refitting so that she may take up the officers to be designated by the U.S. Government to receive official possession of Russian America. In addition she will also take up a scientific party to thoroughly explore the country and report fully on its resources, of which at present so little seems to be known! The Lincoln, before sailing, will be thoroughly overhauled and repaired. The present three bladed propeller is to be taken out, and . two bladed substituted as being more efficia ent and less in the way when sailing. She is to have yards placed on her main mast, which will make her full brig rigged and is to be fitted with boarding tiltings so as to be thoroughly prepared for the northern Indians, who are both num ross and warlike. The limited-scarcely more than enough for her own officers and crew-how the Commissioners and scientific party are to be accommo-

EXTRAORDINARY STRIKE .-- Yesterday about 400 miners employed at the Carr-house Colliery, near Rotherham, were thrown out of employ in consequence of a strike on the prrt of about 40 boys whose labour is necessary to the working of the pit. Five of the boys had been fixed 2s 6d, each for breaking their lamps, but on its being found that the damage was not so scrious as was expected the fine was reduced to 1s, 9d. The boys demanded that the whole of the fine should be remitted, and when their demand was refused their companions made common cause with them, and yesterday morning refused to go down the pit. The men who had gone down were compelled to return, and the pit was thrown idle. Proceedings are to be taken against the youthful delinquents .-

do, but linen is preferable-out of cold vs. Clement, I. B. and Ald. 252. And Lord water, fold it so as to make several thicknesses, and place it upon the child's throat and chest, then fold a dry flannel and wrap carefully over it. Warm the child's feetwith hot stones if necessary-and cover with plenty of bed clothes and let it go to sleep; on the judge directing the jury, and to insist you cannot perceive when it wakes that it on the jury finding a verdict, a course which has even a cold. It acre like a charm.

AN INNOVATION .- The latest innovation in the usuage and custom of the Established for him. Church of Scotland, is the celebration of marriage publicly in church before the congregation, instead of privately at the resiquestion on the basis of guaranteeing the dences of the parties. This plan is stated to neutrality of the Duchy, has been accepted be in conformity with the Directory of Publie Worship and the ancient practice of the Presbyterian Church.

> ST. JOHN'S CHURCH SUNDAY SCHOOL PIC-NIC. -This school will proceed to day on a picenic to Langford Lake. A really pleasant time is anticipated. The funds for the affair were kindly collected by the teachers and liberally subscribed by members of the congregation

WESLEYAN SABBATH SCHOOL PIC-NIC .-- The scholars of the Wesleyan Church will hold a pie-nie to day in grounds adjoining Jay's Nursery, near the head of Pandora street. The procession will start from the church at eleven o'clock a.m. in procession. The children will be accompanied by their teachers and friends.

A Contrast -- The expenditure of Nova Scotia is set down for the current year at \$1,325,784. Nova Scotia has 300,000 inhabiants. The expenditure of British Columbia for the current year is \$701 000. British Columbia has 8000 white inhabitants.

A GENERAL HOLIDAY .- It is proposed to observe the anniversary of the corrobation of Her Majesty as a general holiday. The banks and public offices have agreed to close, and the stores we hope will do like-

FROM NANAIMO .-- The Emily Harris, with coal for Esquimalt, arrived yesterday morning from Nanaimo. The Sir James Douglas steamer towed out the Australiad on Tuesday. The back is bound for San Francisco with a cargo of coal.

SPRING Goods-The assortment of Spring yesterday and comprises the very latest novelties.

CREQUET-Lovers of this favorite game will find the necessary implements at Vic-TORIA HOUSE (corner of Fort and Douglas streets), several sets having been received per Princess Royal.

TAKE AYER'S PILLS for all the purposes of a purgative, for Constipation, Indigestion, BARNARD'S STAGES Headache and Liver Complaint. By universal accord, they are the best of all purgatives for family use.

VICTORIA RIFLE CORPS. - Second Class firing, Tuesday and Friday, at 4 p. m. See Order Board. By order, J. Gondon VINTER, Lieut. and Adjt.

GAZETTED .- We notice with pleasure that Mr Needham, of H.M.S. Malacca, son of Judge Needham, has been gazetted as Licutenant in the Royal Navy.

No PAPER-This being the anniversary of the Coronation of Her Majesty, no paper will be issued from this office to-morrow.

TREASURE SHIPMENT-The Bank of British North America on Wednesday shipped \$21,-

One of the undoubted 'rights of women' s the right to a good busband.

THE PEOPLE'S PHIEND.

PERRY DAVIS' VEGETABLE PAIN KILLER

Taken internally, it cures sudden colds, coughs, etc., weak stomach, general debility, pursery sore mouth, canker, liver complaint, dyspepsia or indigestion, cramp and pain in the stomach, bowel complaint, painter's colic Asiatic cholera, diarrhoea and dysentery. APPLIED EXTERNALLY, cures felons, boils and old sores, severe burns and scalds, cuts, and tetter, broken breasts, frosted feet and chilblains, toothache, pain in the face, neuparents of the unhappy bride and bride- ralgia and rhoumatism. It is A sure REM-RDY FOR A E AND CHILLS AND FEYER.

The Important Case of Titus vs. Corporation.

EDITOR COLONIST :- SIR :- It is quite true, as you say, that the Judge offered to turn the matter in this suit into a special case, but before Mr Ring would agree to this, he in sisted upon the jury finding ave or no.

1st. Whether the work done was necessary for the purpose for which the Corporation was formed?

2nd. Whether the contract was in fac made by the Corporation ?

3rd. Whether after the completion of the work, the Corporation ratified the contract whether made on their behalf, or by themselves in Council.

Upon the affirmative finding of the jury upon these facts, Mr Ring said he was wiling to discuss hereafter the law, which he repairs and fitting up will probably take a affirmed would make the Cerporation liable, month. As her accommodations are too although the control bore no seal, notwithstanding the general rule, which requires a Corporate seal to their contracts Mr Ring insisted upon his right to be heard upen these points. The Judge peremptorily refused, and said he would nonsuit the plaintiff, Mr Ring refused to consent to his client being nonsuited, whereupon the judge directed the jury to find for the defendants.

The case of Hodges vs. Ancrum, referred to by you this morning, is wholly icapplicable to this case. There the question was as to summing up the evidence upon the whole case. Here the questions were upon the admitted evidence to enable the jury to find a verdict upon subordinate facts, under the three heads above mentioned, in order to apply such finding of special facts to the legal exceptions of the rule requiring a Corporate

Mr J. W. Smith, author of the leading cases eays, a plaintiff cannot be nonsuited against his will, and that there are instances in which the plaintiff's Counsel have persisted against the opinion of the judge, and gained CROUP .- Wring a linen cloth-cotton will averdict by their pertinacity. Citing Minchin Campbell in giving judgment in Caser vs. Reed, 21 L. J., N. S. Q. B., says: That if Counsel distrust the Court from which the record comes, and wishes to put the question of law on the record, his course is to insist Mr Ring pursued, impressed with the notion that the best Authority is quite good enough

PERSISTENS.

A New and Grand Epoch in Medlelno.—
Dr. Mauo El is the founder of a new Medical system Thoquan liarinas, whose wast internal doses enteebne the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Hist, and cures the most virulent sores with a box or so his wonderful and all leading Saive. These two great specifies of the hoctor pation. If the fiver is affected, its functions are restored and if the nervous system is feeble, it is invigorable. This last quality makes the medicines very desirable for the wants of delicate formles. Ulcrown and emptive dosesses are iterally extungished by the disconfection power of Maggiel's Saive. In fact, it is here amounted that Maggiel's Balve. In fact, it is here amounted that Maggiel's Balve. In fact, it is here amounted that Maggiel's Balve. In fact, it is here amounted that Maggiel's Balve to include the White for Burns Seatis, Chilbiams, Outs, and all abrasions of the skin Maggiel's Salve is indiable. Said by J. Maggiel's Salve is indiable.

Hever and Ague.—Astonabiling Cures.—D
Figb. it Simms, formerly of the Medical College, Phila
de-phia, and no wone of the most popular paysi-isus in
Minnesota, writes to afrend in New York, the Bristoff's
Sugar-conted Pills are working wonders in that
region, in class of Fever and Ague, and Billious Remittent
Fever. The following extract from his remarks is published by permission of the gentleman to whom the letter
was addressed; "I am not, as you know, much in favor
of advertised pills. Most of them are worthers; semudangerous. But Bristoff's Sugar conted Pills are
an exception. No botter lamity cathartic could be desired. There is nothing in the pharmacopous, as far as
an aware, that is equal to them. Nor is this all; the
antibilious properties of the pills render them a positively
invaluable medicane for the biloss remittent and intermittent fevers so common in this region. Have found
these exceedingly effections in ague and fever. They are

Try the Magnelia Water once and you will use no other

Moorings. The Building is all took cold from a bad hurt in the ler, and was useless for that can be desired, with Dwel-without benefit, until I tried the Mexican Mustain Liniment, It soon effected a permanent cure." Montgomery, Ala. June 17th, 1859. J. L. DOWNING.

"I take pleasure in recommending the Mexican Musang Linement as a valuable and indispensible article for Sprains, Soars, Scratches or Galls on Horses. Our mea havo used it for Horse, Bruises, Sores, Rheumatism, &c., and all say it acts like megic."

Foreman for American, Wells Fargor and Harnden's

J. W. HEWITTI

.. The sprain of my daughter's ank ie, occasioned while skating last winter, was entirely cured in one week, after she commenced to use your celebrated Mustang Lini-Gloucester, Mass. August 1; 1865. It is an admitted fact that the Mexican Mustang Lin ment performs more cures in a shorter time, on man and

beast, than any article ever discovered. Families, liv ery-men and planters should always have it on hand cry-men and planters should always have to an land Quick and sure it certainly is. All genuine is wrapped steel plated engravings, bearing the signature of G. Wn; Westbrook, Chemist, and the private U. S. stamp Demna Barnes x Co. over the op. An effort has been made to counterfeitit with a cheap

stone platelabel. Look closely !

Lvon's Kathairon. It is a most delightful Hair Dressing. It keeps the head cool and clean: It makes the hair rich, soft and glessy.

It provents hair turning gray and fulling off.

It restores hair upon permaturely bald heads.

This is just what Lyon's Kathairon will do. It is retty—it is cheap—durable. It is literally sold by the ar-load, and yet its almost incredible demand is daily

nereasing, until there is hardly a country store that

E. THOMAS LYON, Chemist, N. Y.

does not keep it, or a family that does not use it

Lyon's Flea Powder

Lyon's Magnetic Insect Powder is instant death to Policy States, Roaches, and everything of the insect species. It is one of the few articles that can be relied upon, and for a mere two bits we can save the bites and bills of these little pests. None is genuine unless signed by E. Lyon, and bearing the private stamp of Demas Barnes & Co., New York.

Lyon's Extract Ginger.

LYON'S EXTRACT OF PURE JAMAICA GINGER .- for Indigestion Nausca, Heartburn, Sick Headache, Cholera Morbu, Flatulency, &c., where a warm stimulant is required. Its careful preparation and entire purity make it a cheap and reliable article for culinary purposes Bold everywhere, at 50 cts. per bottle. Ask for "Lyon's Pur Extract. Takeno other.

Caution .-- See that the private U. S. Stamp of Dema Barnes & Co., is overthe cork of each bottle; none other

J. FRIED,

Chemist to H. I. H. Prince Napoleon,

NO MORE COD LIVER O

GRIMAULT'S SYRUP OF IODIZED HORSH RADISI

The syrup is employed with the greatest success, in place of Cod Liver Oil, to which it is infinitely superior it cures diseases of the chest, serolula, lymphatic dis-orders, green stekness, muscular atony and less of up-petite. It regenerates the constitution by purifying the blood, and is, in a word, the most powerful deparative known. It never fatigues the stomach and bowls, and a administered with the greatest efficacy to young child dren enbyect to humors or obstruction of the gland. At last, it is very efficacious in the classess of the skim.

its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in GRIMAULT'S SYRUP OF HYPHOSPHATE OF LIME. This now medicine is a sovereign remedy in phthis1 allower districts of the lungs, promptly removes all the mest serious symptoms. The cough is relieved; the night sweats cease, and the patient rapidly recovers health.

Compound Extract of Sarsaparilla, Compound Extract of Sarsparilla, the rest effectual remedy which the medical skil. It our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul discreder from the blood, and the rescue of the system from its destractive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Emuprive and Skir Discases, T. Anthony's First, Rose, or Errsteems, Pindles, Persulus, Blooteirs, Blains and Boils, Tumors, Tetter, and Salt Rheum, Symillite and Mercurial, Discases, Droppers, Dyspresta, Debility, and, indeed, all Complaints artising from Vittated on Impurity of the blood," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virue of this Sarsaparilla is to purify and regenerate this vital fluid, without w'ch sound health is impossible in contaminated constitutions. anomia.

The majority of the Academies of Medicine of Paris recommend the Phosphate of Iron to lastics of delicate constitution sudering from anoma, and other persens latigued from over anxiety, nervous enotions, over work, general debility and poorness of blood.

It is the only preparation which never causes contitued in and can be berne by the most delicate stomachs.

Nervous Hendaches and Neuralgias Instantaneously cured by

A vegetable substance, wed from time immemorial in Brazil, and entirely inoffensive.

DIGESTIVE LOZENGES AND POWERS OF ALKALINE

LACTATES BY BURINDU BUISSON,

And at every good Chemists' At ROTURIER,

FOR ALL THE PURFOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they care the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their curve, and directions for their use in the following complaints: Costiveness, Heartharn, Headache arising from a disordered Stonach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flattlency, Loss of Appette, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions. CURES AND COMFORT FOR THE BED-RIDDEN.

So wide is the field of its usefulness, and so manerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have fulled and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten. Ho sufferers from the racking pains or an ematism and Gout this chainest will prove invaluable. After former tation with warm water the southing action of this Olistment is most remarkable; it seems at once to lesson inflamation, case pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Gintment and Pills are infullible spe

Sin Diseases, Scrotula and Secury.

This Outment is a certain cure for Riemworm, Scurvy Scrotta or King's Evil, and the most inveterate skin diseases to which the huran race is subject. They cannot be treated with a saler or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills, which act opowerfully on the constitution and so purify the blood that those disorders are completely eradicated from the system, and a lasting cure obtained

Montgomery, Ala. June 17th, 1859.

"I take pleasure in recommending the Mexican Mus ang Linement as a valuable and indispensible article for Sprains, Sears, Scratches or Galls on Horses. Our men have used it for Barns, Bruises, Sores, Rheumatism, &c., and all say it acts like megic." Foreman for American, Wells Fargo's and Harnden's

. The sprain of my daughter's ankie, occasioned while skating last winter, was entirely cured in one week, after she commenced to use your celebrated Mustang Liniment."

It is an admitted fact that the Mexican Mustang Lin ment performs more cures in a shorter time, on man and beast, than any article ever discovered. Families, livery-men and planters should always have it on hand Quick and sure it certainly is. All genuine is wrapped steel-plated engravings, bearing the signature of G. Wal Westbrook, Chemist, and the private U.S. stamp Demas Earnes & Co. over the op.

An effort has been made to counterfeit it with a cheap stone platelabel. Lock closely!

Lyon's Kathairon.

It is a most delightful Hair Dressing It makes the hair rich, soft and gloss y. It prevents hair turning gray and falling off.

It restores hair upon permaturely bald heads. This is just what Lyon's Kathairon will do. It 1 car-load, and yet its almost incredible demand is dail car-asa, and yet a minuse increasing usuas a sample increasing, until there is hardly a ficountry store the does not keep it, or a family that does not use it.

E. THOMAS LYON, Chemist, N. Y.

Lyon's Flea Powder

Lyen's Magnetic Insect Powder is instant death to leas, lieks, Roaches, and everything of the insect species. It is one of the few articles that can be relied pon, and for a mere two bits we can save the bites and bills of these little pests. None is genuino unless sign by E. Lyon, and bearing the private stamp of Dem Barnes & Co., New York.

Lyon's Extract of Pure Jamaica Ginger -- for Indigestion

Lyon's Extract Ginger.

Nausea, Heartburn, Sick Headache, Cholera Morbu Flatulency, &c., where a warm stimulant is required its careful preparation and entire purity make it a cheap and reliable article for culinary purposes. Bold everywhere, at 50 cts. per bottle. Ask for "Lyon's Puro Extract. Takeno other. Caution See that the private U.S. Stamp of Dema Barnes & Co., is overthe cork of each bottle; none other

LIFE DEPARTMENT.

This Institution accepts proposals at the rates of premium applicable to Europe, which on examination will be found more advantageous than those charged by other Offices having Agencies here. It unites all the advantages of a Mutual Association with the security of a Proprietary Company. The Participation Branch is concluded by the Proprietors of the Company for a charge of 10 per cent, on the premiums, without any other deduction whatever. Thus the assured enjoy the pront without rite Laminty of the Mutual System.

The participation in profils has been most liberal should claims arise before the next investigation, a prospective bonus of nearly 1½ per cent. is alloited.
